

Now Hiring: Certified Avionics Technician

Location: Hangar A, 3822-21A St. Springbrook, AB

Apply in person or via email at admin@titanavionics.ca

Titan Avionics is a Transport Canada-approved maintenance organization based at Red Deer Regional Airport, specializing in installing, repairing, and inspecting avionics and electrical systems for both fixed-wing and rotary aircraft. Known for our precision, clear communication, and commitment to quality, we help keep pilots confident and aircraft mission-ready.

As we continue to grow, we're looking for a Certified Avionics Technician to join our team in Springbrook, Alberta. If you're seeking a hands-on role in a collaborative environment where your skills are recognized and your growth is supported, we'd love to hear from you.

What We Offer

- Competitive wage (based on experience and certification level)
- Overtime pay
- Flexible, full-time schedule
- Health and dental benefits (after 3 months)
- Limited travel – occasional off-site work may be required
- A close-knit and growing team where your voice matters

What You'll Do

- Install, troubleshoot, repair, and maintain a wide range of avionics systems
- Work with pitot-static, communication, navigation, autopilot, flight management, and electrical systems
- Perform system modifications based on manufacturer service bulletins, engineering orders, and Transport Canada-approved documentation
- Certify the proper installation and function of all avionics components
- Maintain accurate and timely technical records, including Service Difficulty Reports
- Keep tools, equipment, and the shop organized, clean, and safe
- Supervise, mentor, and support apprentices and non-licensed techs
- Promote a positive, professional workplace by leading with integrity
- Participate in our Safety Management System (SMS) and Quality Assurance (QA) programs
- Follow all company policies and safety procedures
- Pitch in with other tasks or projects as needed

What You'll Bring

- Valid Transport Canada AME-E License
- Diploma in Avionics Technology
- Strong understanding of avionics systems and relevant regulations
- Hands-on field experience in avionics maintenance
- Excellent attention to detail and problem-solving abilities
- Comfortable working both independently and in a team
- Previous supervisory or mentoring experience is a strong asset
- Commitment to safety, quality workmanship, and ongoing learning
- Valid driver's license
- Proficient in spoken and written English
- Based in the Red Deer area or willing to relocate

Relocating to Red Deer?

Not only will we work with you to help find housing, we also offer a relocation subsidy.

Red Deer is centrally located between Edmonton and Calgary, and only 2 hours away from the Rockies. With five smaller communities within a 30-minute drive, you can get rural vibes with a short commute – all while lowering your cost of living.

If you're passionate about aviation and want to work with a dedicated team, we invite you to apply today by emailing admin@titanavionics.ca.
