Latest Recipes Home Screen Widget on Mobile

VORWERK

Latest Recipes Home Screen Widget on Mobile

What is this feature about?

The Latest Recipes Widget will allow you to take a look at the latest recipes on Cookidoo, directly on your smartphones home screen, without having to enter the app.

Users will have the choice between three widget sizes (small, medium, large).

Pressing on the displayed recipe will launch you directly into the recipe details page of the app.

Planned for
Mid March

Latest Recipes Home Screen Widget on Mobile

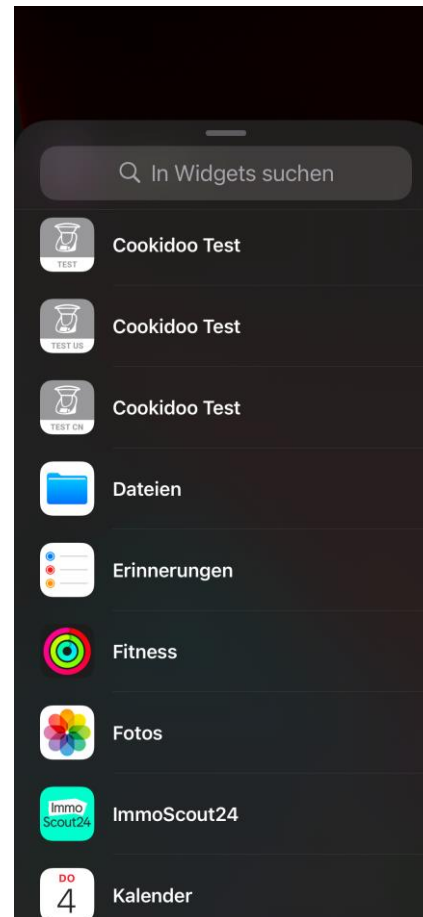

How to use this feature?

Step
1

Long Press the device home screen to enter "Wiggle Mode".

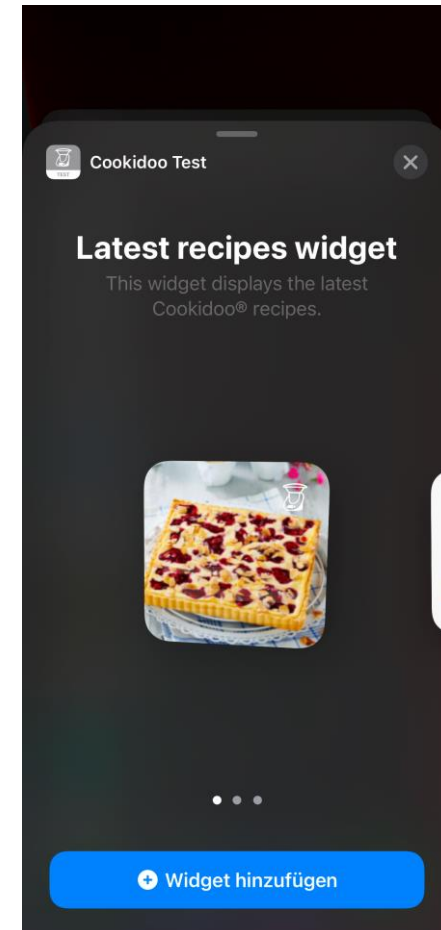

Press the "+" button in the top left (/ top right, depending on your device) of the screen.

Step
2

In the popover menu select "Cookidoo" ("Cookidoo Test" is the prerelease name)

Step
3

Swipe through the three available widget sizes (small, medium, large), and press ("+ Add widget") if you found a size that you like.
