	Category: Policies Title: Health and Safety Policy Statement		
Version 02	State Effective	Effective Date 05-MAR-2021	Document ID 313681

Matrix Logistics values and recognizes the importance of health, safety and the welfare of all personnel at Matrix Locations and the communities that we operate within.

Matrix believes in the active participation of every member of the company in promoting, achieving and maintaining the highest standards of health and safety, as reasonably practicable through the prevention of occupational injury or illness and the Early Safe Return to Work Program.

We are committed to the continuous improvement of health and safety by exceeding or meeting statutory obligations to the managers, supervisors, workers, contractors, and visitors who may be affected by its activities, as required by the relevant provincial Occupational Health and Safety legislation and our own health and safety standards.

Management is committed to provide adequate funding and resources, to maintain a safe and healthy environment, equipment and systems of work for all employees.

The Internal Responsibility System is the foundation of our Health and Safety Management System and Safety Culture, where all levels of the organization are responsible for the well-being and safety of all. Management fully supports and is active in the efforts and activities of the Joint Health and Safety Committee.

A safe and healthy workplace is the responsibility of everyone. Every Matrix employee must take reasonable care of the health and safety of themselves and others while at work, and co-operate fully with all health and safety related matters.

It is Matrix's top priority to ensure that everyone goes home safely every day. It is only through active participation and support of all individuals that this will be achieved.

The information in this policy does not take precedence over applicable government legislation, with which all workers will be familiar.
