

What defines a WELL WOMEN EXAM?

A Well-Women exam is defined by your insurance company as a yearly exam without having ANY complaints or problems.

If you have any complaints and/or any problems are found, an additional charge may occur. Since we do not know the benefit structure of your insurance coverage, it is your choice how you want the providers to handle your care.

If needed the provider may ask that we address the complaint/problem first and then reschedule your Well Women appointment to another day.

Thank you
