Why Summer Learning Matters

Summer is a perfect time for kids to responsibly have fun, learn and discover more things. Reading books together, doing arts and crafts, playing outside and allowing children to ask questions helps in the development of skills. Besides confidence building, these activities prepare kids for the new school year. Here at Growing Angels Inc., every moment is a chance to learn, grow and discover something new.

Remember: Summer temperatures can be very warm. Drink plenty of water throughout the day to stay hydrated, wear sunscreen, and take breaks in the shade when playing outdoors.
