

Encore Award

This certificate is presented to

Mathew Goodall

For demonstrating the following behaviors:

For significant contribution to the success of the FHA Scorecard Release and Merged Credit Reference Number Release. The contribution was in making the release possible by testing and implementing the necessary infrastructure. The contribution was in support of the release and our customer after each implementation. Long hours of solving problems in infrastructure and application logic made the release a success. The team has resolved a significant number of issues while managing an inordinate amount of new functionality. Our work load has significantly increased, but the team's composure, skill and professionalism has prevailed. Thanks

Congratulations & Thank You!
