Divine Breast Imaging

4336 4th Street North, St Petersburg, FL 33703 info@DivineBreastImaging.com

Please follow the steps below if you would like to petition your insurance carrier for reimbursement of your QT Scan. Some of our Divas have received 100% reimbursement, some partial, and some none... but the more we ask, the sooner more of you will have this option.

•Before you call your insurance carrier-Read the "**Letter for Your Doctor**" on our homepage so you can speak intelligently to them and let them know what you want covered and why.

•Find out if they need a referral from your doctor or pre-approval. (If you need a referral: RadiologyAssociates.com $40.-ish)

•Choose one (or several) diagnosis codes from the chart below that you feel MAY apply to your particular situation... (for example: R92.30 Dense Breast NOS)

•Log in to your (Avara) client portal and locate the Messaging option.

•Message us with (just) the diagnostic codes that you want us to put on your Super Bill.

•Once we create your Super Bill, you will get an email notification that it is in your Documents. (Ignore the Avara portal Super Bill button/option. The one we place in your documents will be best.)

•Download your Super Bill from your Documents and send it to your insurance carrier.

Your Super Bill will have everything on it that is needed for your insurance carrier, including **our newest CPT code 1079T, effective October 1st, 2026**. If there is anything else they need on it, we don't have it.

Below are some examples of diagnosis codes that may be applicable for the use of QT Scanner. This is not meant to be an exhaustive list.

ICD-10-CM	ICD-10-CM Diagnosis Description
