# WE ARE HIRING FREE INTERNSHIP

## Product Development Intern

We are looking for creative and sustainability driven students to join our product innovation team at Bharga Biotech. As a Product Development Intern, you will work on developing fashion accessories and lifestyle products using our in-house biodegradable leather-like material. This internship provides hands-on exposure to material innovation, accessory design, and sustainable product development.

### Key Responsibilities

- Ideate and develop fashion and lifestyle products using Bharga's bioleather sheets (bags, pouches, footwear prototypes, wallets, etc.)
- Study material properties and experiment with cutting, stitching, surface finishing, printing, or embossing techniques.
- Assist in prototyping, pattern making, and sampling
- Collaborate with the design, sustainability, and R&D teams to convert ideas into tangible products
- Research eco-design trends, ergonomics, usability, and functionality in product concepts
- Document your work through design sheets, process logs, and photography

**Duration**  
**1 to 6 months (flexible)**

### Who Can Apply

- Students pursuing Fashion Design, Fashion Technology, Accessory Design, Product Design, or Lifestyle Design
- Passionate about sustainable fashion, biomaterials, and circular design
- Strong visualization, prototyping, and communication skills
- Basic knowledge of handcrafting, digital sketching tools (Adobe Illustrator, CorelDRAW, etc.), or sewing is a plus

### Internship Details

- Free Internship – No registration fee
- Selection based on online interview
- Internship Certificate
- Exposure to sustainable material development
- Top performers may be offered placement or long-term roles in future.
