Create a subscription

Once you've created an account on the website and created your settings, you can create a subscription to activate your accounts. The Stripe subscription comes with a 30-day free trial, which you can cancel at any time. You won't be charged until the end of the free trial, then once monthly at the end of each period. You will have a link to log into the Stripe portal and change your subscription settings.

Enter your email and payment information.

Uploading files with the MGDT Uploader app

To upload files to the FTP server you can use the server

"mgdtftp.eastus.cloudapp.azure.com" and the FTP username and password. In the Uploader set the FTP folder to "\" and the name of the tool in the other field.

Uploading files via FTP

To upload files to the FTP server you can use the server

"mgdtftp.eastus.cloudapp.azure.com" and the FTP username and password.

Opening the Remote App

Log into the MGDT Online remote app with in Azure Virtual Desktop by means of the "Windows App" app from the Windows app store. On windows, it will be like you are working on your local computer even though everything is in the cloud.

More ways to connect to the remote app can be found here:

https://learn.microsoft.com/en-us/windows-app/get-started-connect-devices-desktopsapps?tabs=windows-avd%2Cwindows-w365%2Cwindows-devbox%2Cmacosrds%2Cmacos-pc&pivots=azure-virtual-desktop#connect-to-your-devices-and-apps

Sign into "Window App" with your AVD Account username and password. Such as

Go down to the apps section. And click on the app.

It will open in a window and look like it's running on your computer. The icon in the taskbar will look like

WILL LOOK LIKE

Setting up MGDT App configuration for the first time

Instructions will be added later

General use of MGDT application

The last month of files will be in the Desktop Uploads folder. Any files older than one month old will be automatically removed from this folder.

I've added a quick Sample button for the templates as they will be empty when a new user signs into to a new account.

Template	25	_		\times		
Templates	Choose Template v					
Address						
Shop Name 100 Street N City Name, S	sme tate 00000					
Message {CustomerNa {VIN}	ime) (Year) {Make} {Model}					
Successfully performed the (Make) (RepairDescriptionTitle) procedure per service information direction and position statements relative to completed repairs. Performed follow-up scan and confirmed that all vehicle systems are clear of faults at this time.						
Save Ter	nplate Save Template As	ample to	o templat	e		

When the report folder opens it can be copied then pasted into a File Explorer on the local computer. Because the file Explorer that opens belongs to the Virtual machine in the cloud even though it looks like it's local. The users' computer drives are also mapped so they could also open them there and paste them there as well if they want to pin a Favorite to a directory on their own computer.
