Gallup reports that highly engaged workplaces see 20% higher revenue, 21% more profitability, 10% better customer ratings, and 67% higher retention. Unfortunately, they also report that only 34% of employees are engaged. Traditional employee engagement programs are outdated and reveal symptoms but don't cure problems. Korn Ferry found that 80% of workers have high stress and 63% don't trust leaders. High stress and low trust is costing firms \$7 trillion worldwide for healthcare, absenteeism, recruiting, and lost productivity. Dr. Paul Zak, neuroscientist and author of **The Trust Factor**, validated that low-stress and high-trust employees have 50 to 76% more productivity and engagement, but achieving this requires a new scientific approach.

LEADWELL86™ is the only neuroscience-personalized productivity and engagement system that's affordable, effective, and proven. This patent-pending system consists of three elements:

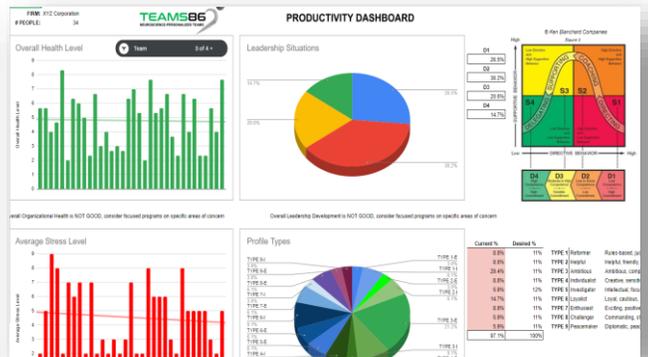

GATEWAY86™: Employees take a 10-minute web or mobile test and get a neuroscience-based personality profile offering insights to improve their brain, health, leadership skills, and relationships.

TEAMS86™: HR teams use this to better screen candidates based on neuroscience and not observational "guessing" to hire the right people for the right teams. Neuroscience-based evaluation and messaging guides help to evaluate and attract the best candidates.

GOALS86™: HIPAA-compliant personalized portals for 18 different profile types offer content created by PhD neuroscientists, HR execs, nutritionists, and leadership coaches. Included are health assessments, diet & nutrition tips, leadership training, engagement surveys, fitness tracker syncing, and team relationship guides.

Other options require cobbling together several ala carte solutions at great cost and complexity. Using neuroscience, **LEADWELL86** helps lower stress and increase trust to increase engagement.

Proven results show a 10 to 50% increase to help rocket your firm into the "highly engaged" category to drive **20% more revenue without increasing staff**. [CONTACT US](#) to find out more about our low-cost and guaranteed **Pilot Program (info@Aretanium.com)**.
