To Whom It May Concern:

I am happy to recommend the services of Seraphim Wood, Special Projects Coordinator at Aflac who has been working with our employees for over two years now.

Seraphim made an introductory presentation on Aflac's products to our staff and explained how useful they can be. With his help, many understood the need for Aflac's voluntary, supplemental benefits and signed up for coverage.

Throughout the years, Seraphim has kept close contact with his policyholders, even helping in making claims. He returns annually during Open Enrollment times to answer questions, share new plans, explain any changes, and enroll new members.

I can testify that working with Seraphim Wood is a pleasurable and professional experience and I invite others to do the same!

Sincerely,

Jennifer Shaburnikova
Director of HR / Accounting
