

To Whom it May Concern;

Our company has been with Aflac for several years and have experienced a few different sales coordinators. The current person, Seraphim Wood has been by the far the best.

He has gone out of his way to help in employees understand the coverages, help with claims, and answer all our questions in timely fashion.

I would recommend Seraphim Woods to any company considering Aflac insurances programs. Plus, with that the cool name how could you not!

Best Regards

Kevin Mooney
