To Whom It May Concern,

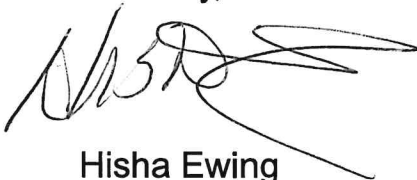

I am very pleased to recommend the services of Seraphim Wood, Special Projects Coordinator at AFLAC.

Seraphim worked diligently with Smarty Pants DayCare since 2018 to communicate the importance of insurance. AFLAC did not seem to be a fit for our company at that time. Due to Seraphim informative presentations and the devastation of Covid we all agreed it was an essential need.

Seraphim expressed his love of helping people by establishing our accounts and guiding us through the process. His patience and dedication proved to us, he treasures people well being and love empowering people with knowledge to protect themselves.

I would recommend Seraphim Wood to anyone - he is a true gift to people. I am so honored to have worked with him throughout the last four years.

Sincerely,

Hisha Ewing
