To Whom It May Concern,

I have had the pleasure of knowing Seraphim Wood from AFLAC for just shy of two years. He supported VCS Inc. administration to identify the best options at the best cost for our employees.

Julie Wendholt

The enrollment process can be intimidating, but Seraphim's approach is thoughtful and supporting. His interest in our wellness is evident and his support doesn't end at enrollment. Seraphim stays connected with us throughout the year and most importantly, is responsive when we ask for support in submitting a claim. These life circumstances can be difficult; however, Seraphim is supporting and trustworthy.
