

2024 Rules and Class Breakdown

1. All machines **must** pass tech inspection and must be in safe working order.
2. All machines **must have** working front and rear brakes. Bikes only need rear brakes.
3. All machines **must have** right side (facing outside of track) number plates.
4. Tether switches are **required** on all quads except classes that state so in the class breakdown, such as pee wee and super pee wee. Bikes do not need them.
5. Nerf bars are **required** on all quads unless stated in class breakdown, such as pee wee and super pee wee.
6. All machines must fit through the width gauge during tech inspection and be a max of 50" wide through the events
7. All riders must have proper safety gear:

- Helmet
- Eye protection
- Boots above the ankles (No tennis shoes)
- Gloves
- Chest protectors
- Neck brace

8. All riders will abstain from alcohol or recreational drug use before and during races. Any rider visibly under the influence will be disqualified

9. Restarts will be at the **flagger's discretion**.

- In the event of a restart **before** the first lap is complete, all machines will be lined up on the starting line except for the rider or riders who caused the restart. They will be lined up in the back row.
- In the event of a restart **after** the first lap, all riders will be lined up for a staggered start.

10. If you are having trouble getting your machine started, you can send someone to staging to request a 2-minute grace period. After that, we must move on in order to stick to the schedule.

11. No cutting the barrels and tires. We understand things happen, but we will be watching for those who intentionally cut, and we will disqualify accordingly.

12. In the event of an accident, nobody is allowed on the track until all racing has been stopped and the ambulance has arrived.

13. Dangerous pit riding will not be tolerated – dangerous riders will be subject to removal from the race/track.

14. Absolutely NO pit riding without a helmet.
