

TEAM BUILDING

Warp Drive Race Park is proud to announce a world-first event: The Big Race. While designed as an exceptional team-building opportunity, this event specifically aims to improve collaboration, communication and problem solving.

The race format places your team of six drivers against 15 other teams in a two-hour endurance challenge. Each team is responsible for developing its own strategy, including managing 12 mandatory pit stops to change drivers at your discretion.

To ensure a professional racing experience, our purpose-built go-karts are equipped with 9hp Honda engines capable of speeds up to 55 km/hr. These vehicles feature hydraulic brakes, rack-and-pinion steering, headlights, and brake lights. Additionally, each go-kart includes side-view mirrors and a remote-activated signal light, allowing your team to communicate precisely with the driver when it is time for a pit stop.

This state-of-the-art experience also includes a mobile app so you can monitor the race's progress from anywhere in the facility. Following the awards ceremony, participants will enjoy a seat-down buffet meal and a opportunity to network with colleagues.

We would love to have you join us for this unique event. Please let us know if you are interested in registering a team or if you require further details regarding the schedule and pricing.
