

FOREST KIDS

PINECONES + SAPLINGS

ABOUT OUR PINECONE + SAPLING
PROGRAMS | AGES 4 - 7

PLAY-BASED + HANDS-ON LEARNING

Our Pinecones program is a playful, discovery-driven outdoor program that focuses on guided exploration of our natural world. Kids engage in hands on sensory-rich activities that spark curiosity, build confidence and nurture a life-long love of the wild. The most memorable and impactful learning happens through play and hands on experiences - which is why this is a core focus in our Forest Kids programming.

WEEKLY NATURE-BASED CURRICULUM

Each session includes a variety of nature study lessons, taught through story telling, science experiments, nature crafts, hand-on observation and group games - all rooted in the rhythms of the seasons. Our nature study curriculum ensures kids learn all about the magic and fun of being in nature and encourages them to appreciate and respect each plant, animal and little creature, as an important part of our world.

LEARNING BEYOND THE CLASSROOM

Some of the most meaningful learning happens when children are free to explore, discover, and follow their curiosity. A day in nature encourages problem-solving, creativity, and independence in ways that can't be replicated indoors. Children learn to assess risk, work together, and think critically—all while developing a deep connection to the environment. Taking a break from traditional classroom learning isn't falling behind—it's expanding how children learn and grow.

Joining the Forest Kids family also gives you access to all of our FK family fun nights, throughout the school year!
