  - b. We will begin roll out to all members after renewal process is completed. Joe will provide text for an email to be sent to all existing members.

2. ClubExpress update:

We have signed up with ClubExpress and have received information packets with the data we need to provide to prepare for our kickoff meeting on 2/25/2026. This information is required for them to structure their application to our processes. After the meeting it will take approximately 60 days to get the new tool up and running. When it is ready to go live all members will receive an email with instructions.

Open Items requiring follow up at next meeting

1. Discussion regarding range safety and use of proper safety equipment. There have been situations where someone, during orientation, did not bring the appropriate safety equipment and they borrowed someone else's at the range portion of the orientation. Going forward, if the attendees do not bring the proper safety equipment they will not be allowed to complete orientation and will have to reschedule. **Action:** Joe will look at wording on website to reflect this.

2. Status - Indoor range issues – The indoor range is getting more use this time of year with the weather. This is resulting in more damage to the range and lots of stray shots. Guidelines email will be sent out after first of the year to increase awareness of activities causing damage. Motion passed for a budget of \$9,000 for new baffle close to shooting stations. General note: There will be an upgrade to the indoor range in 2026. More info to follow.
3. Status - Eli, Joe D. and Barth will draft an update to the Bylaws to address these items.
4. Discussion regarding MSC Alarm Monitoring? Email from Wayne King
5. Make sure donations can be broken out in new system for tracking purposes.
6. Need to have further discussion regarding camera placement in the indoor range., Joe to reach out to GOAL for recommendations on range design.
