Posting Expires: 10/10/2022

Job Description: We are a small family business that strives to provide a quality homemade, preservative-free product. As a member of our team, you would be the face of the business at the farmers markets and be responsible for helping to grow our customer base by providing exceptional service and be knowledgeable about the product line.

This job requires clean attire, your hair to be pulled back, and comfortable shoes for standing on asphalt. It also requires lifting heavy tents, tables, & crates of mason jars during set up and tear down. During the market you are responsible for engaging customers, being welcoming to those nearby, making accurate sales and tracking inventory.

We currently serve Washington & Benton counties and could be asked to travel to an event in any of those areas. Your normal workday would begin at our home in Bella Vista to load your product, safely drive to the event, set up, sample & sell jars. At the event end, clean up, return to unload, count in inventory, and balance cash box to qualify for bonus pay. Pay will be calculated daily and processed at the end of the week electronically as a 1099- contract employee.

I make Jam, Jelly, Sauce, & Salsas. Sweet, Spicy, & Savory. Please consider being part of our family business.
