******* *Please note with any Day-Of- Coordination, any wedding held at a Community Center, Winery, Historic Property, or Private Property (any location that does not have staff included as part of your rental), you will be asked as part of your contract to determine 4 to 6 volunteers that can assist the day of the ceremony or reception to assist with set-up. If you have a caterer that will assist with setting up all the tables and chairs as part of your contract and location staff that will set up chairs for the ceremony, this requirement may not be necessary. If you do not have volunteers that can assist, additional charges may apply to hire a crew to help set-up. The number of staff will be determined about a month before the event when schedules and floor plans are developed and are billed in addition to any of the above contracts.*
