

Live Live Entertainment

Bringing Community Together through Live Events and Social Impact Initiatives

By: Reverend Thomas

About us

At Live Live Entertainment, our mission is twofold: to unite communities across Southern California through vibrant live events, fostering a spirit of togetherness and joy; and to serve those in need through impactful social initiatives, addressing homelessness, food insecurity, and supporting vulnerable populations.

We are dedicated to leveraging the power of entertainment to create positive change, uplifting lives, and building a stronger, more compassionate society.

Our Community Impact

At Live Live Entertainment, we're proud to be a catalyst for community unity and social change across Southern California. Each year, we curate an array of vibrant and engaging events, including concerts, sports spectacles, and fundraisers that captivate audiences and bring people together.

Concerts

From electrifying music performances to cultural celebrations, our concerts resonate with diverse audiences, fostering a sense of belonging and celebration.

Sports Events

Our thrilling sports events ignite passions, rallying communities and promoting healthy lifestyles through friendly competition and sportsmanship.

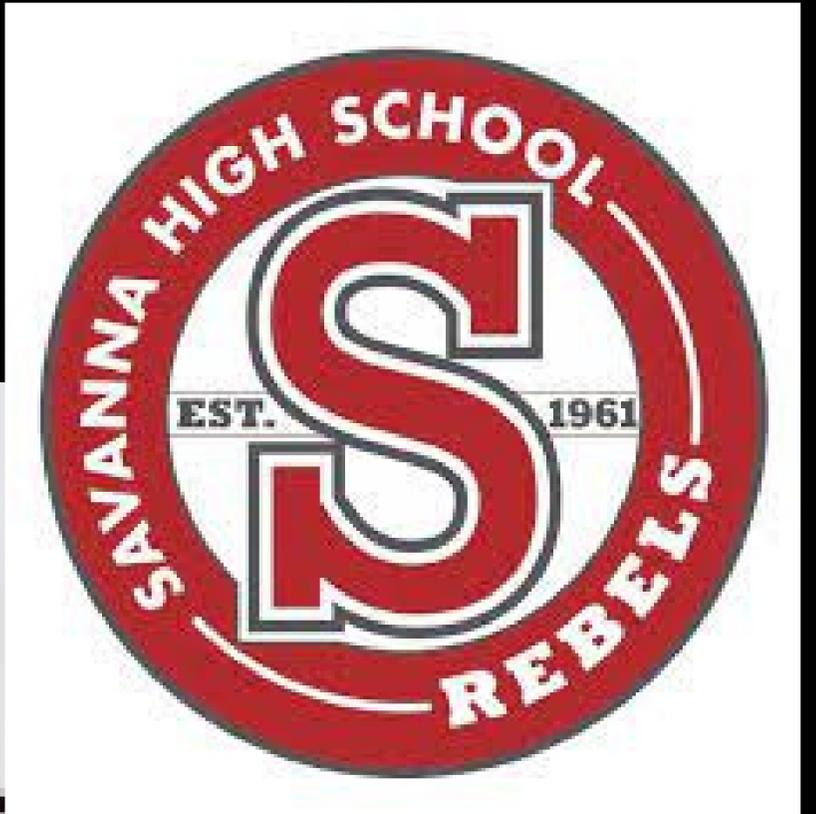

Feeding Ministry

Alongside our events, we prioritize serving the community through our partnership with the City of Buena Park. Our feeding ministry feeds 2000 individuals weekly, addressing food insecurity and making a direct, positive impact on the lives of those in need.

Changing Of A School Mascot

we take pride in our commitment to fostering inclusivity and positive change within communities. We were honored to play a pivotal role in advocating for and supporting the transformation of a school mascot from its association with a Confederate soldier to a more neutral and inclusive representation.

The Social Issue: Homelessness and Food Insecurity in Southern California

Southern California grapples with a pressing social challenge: the pervasive issues of homelessness and food insecurity affecting individuals and families across the region. Live Live Entertainment dedicated to shedding light on the severity of these interlinked issues through compelling statistics and data, emphasizing the need for proactive measures and community support.

Feeding Ministry feeding 2000 people weekly
