Spring 2019 Newsletter

by Leilani Lucas (leilani.lucas@csn.edu)

Happy New Year Archaeo-Nevadans!

Get ready for 2019 because Archaeo-Nevada Society is going to have a busy year full of lectures, field trips, Adopt A Highway clean-ups, an excavation at the Springs Preserve and the 3rd Annual Archaeo-Nevada Society/CSN Anthropology Club Conference. As we ring in the new year we are feeling even more energized. The first lecture and field trip was a success! On January 10th Garrett Fehner and Dawn Reynoso gave a great talk on the history and future of the Ice Age Fossils State Park. The following Saturday they guided some of our members around the site of the future State Park. On Sunday, January 20th we held our quarterly Adopt A Highway clean-up and Helen reports that it was the most attended one yet. Well done crew!

We have a new website with an easier platform to ensure we are able to get the information out to everyone. Please check it out when it becomes live in early February! www.archaeonevada.org

Thank you all for a great 2018 and I look forward to 2019 as the President of ANS! – Leilani Lucas
