

# NEPHRO WARRIORS: STRATEGIC MISSION STATEMENT

## Our Core Aim

Nephro Warriors aims to empower the renal and veteran communities by establishing a tactical support network dedicated to peer advocacy, clinical collaboration, and legislative action. We are committed to building the foundational infrastructure necessary to ensure that no kidney patient or veteran must navigate their medical journey alone.

## Strategic Goals & Initiatives

**Program Development (Battle Buddies):** We aim to launch the Battle Buddies mentorship program to provide a structured, peer-led support framework for those navigating the complexities of kidney disease.

**Infrastructure Growth (Nephro Corps):** Our goal is to construct the Nephro Corps network, actively developing a national circuit of advocates, veteran leaders, and clinical partners.

**Legislative Tracking (Policy Patrol):** Through the Policy Patrol initiative, we intend to monitor and support vital legislation, such as the Living Donor Protection Act (H.R. 2687), to safeguard patient rights.

**Resource Deployment (Media Hub):** We are building a comprehensive Media Hub to provide the renal community with a library of instructional tutorials and motivational content from the front lines.

**Web:** [www.NephroWarriors.org](http://www.NephroWarriors.org)

**Location:** Lake Forest, CA

## **The Warrior Code: Statement of Values**

**Integrity in the Trenches:** We operate with absolute transparency and honesty, especially while we are in the foundational build-out phase of our mission.

**Tactical Resilience:** We believe in the "Warrior" mindset—adapting to the challenges of kidney disease with the same discipline and grit required on any frontline.

**Peer-Led Authority:** We value the "Battle Buddy" model, where lived experience as patients and veterans drives our advocacy and program development.

**Clinical Collaboration:** We respect and rely on the expertise of our medical partners to ensure our infrastructure is built on a cornerstone of clinical excellence.

**Unified Support:** We believe that "Together We Thrive," and our primary value is ensuring that no individual faces their renal journey without a tactical support network.

**UNITED FOR KIDNEY WELLNESS  
TOGETHER WE THRIVE**
