

NEPHRO WARRIORS

OFFICIAL MEDIA BOILERPLATE

www.nephrowarriors.org

Nephro Warriors is a California nonprofit public benefit corporation dedicated to empowering individuals navigating every stage of renal health—from chronic kidney disease (CKD) and dialysis to kidney transplantation and post-transplant life. Built on the guiding principle *"United for Kidney Wellness, Together We Thrive,"* the organization provides a relatable, community-driven bridge between clinical medical advice and the lived patient experience.

Through practical tutorials, motivational advocacy, and authentic peer support, Nephro Warriors helps patients master their nutrition, understand their treatments, and reclaim their strength. Driven by a mission to ensure no one fights kidney disease alone, the organization champions a "warrior-centric" approach that dignifies the patient journey, promotes living kidney donation, and fosters a resilient community for kidney health.
