Characters mimic scheming family from original series. Trump solves all world problems building hotels. No one he talks to respects him though he thinks they do. There is a constant smell. Everyone who enters mentions toilets or pinches their nose. Cook in kitchen is never seen. Forced to work to get wife and child released from Guantanamo. Just yelled at by trump over pile of food apparently too busy to reply. Everyone enters through famous curved door stage left. Daughter Ivanka has a PR problem with her corporation. A powerful woman but still selfish. Her

clothing line uses sweatshop labor. Arranges meeting with women's group on phone while complaining about productivity of child labor.

Don Jr. and Jarrod Kushner have many schemes going on including bottled air factory, hotel made of plastic trash and Silt River Tree Museum.

Tiffany is tied up on the white house lawn by Don Jr.. Various groups come to "Visit" her. This is based on an actual married with children episode where Bud ties Kelly to a lamp post. Use original Love and Marriage for theme from Married with Children.
