## Victory Fire Protection Series (VFP) Residential Domestic Water and Fire Sprinkler Booster Pump Systems

Aqua Pro Pump Systems now offers its new VFP series residential domestic water and fire sprinkler booster pump systems. These systems are available in two models: high-pressure for applications that use a storage tank as the supply source, and standard pressure for applications that need to boost the pressure of municipality supplied water. Both systems are designed to meet NFPA 13D.

VFP-40

VFP-60

### Features
