

NORTH AMERICA WATER TECHNOLOGY

Residential House

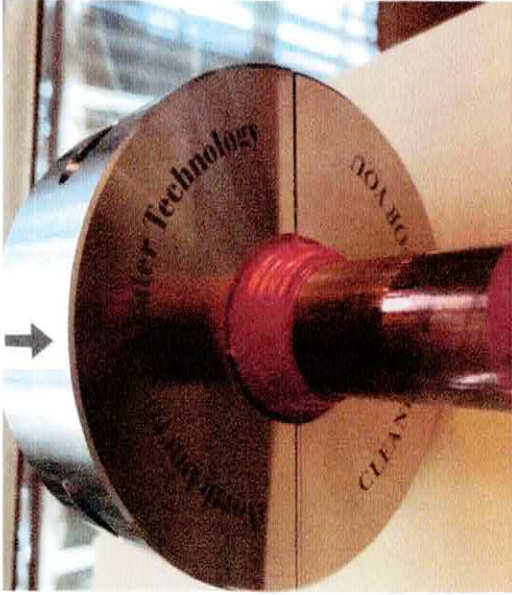

Residential plumbing systems are made up of many compartments. The entire system works from start to finish. from water from the street or from the ground and disposing of the wastewater.

The water main is the pipe that connects from your to your incoming water source. Water pipes, valves and drainage Are part of the water network. They ensure that the users have water throughout the household. Water heaters and storage tanks provide hot water for bathing, cleaning dishes and other household needs.

A regular home plumbing system has three basic problems.

- Scale
- Rust and corrosion
- Bacteria being the most important

NAWT quantum collar is the best solution for these problems.

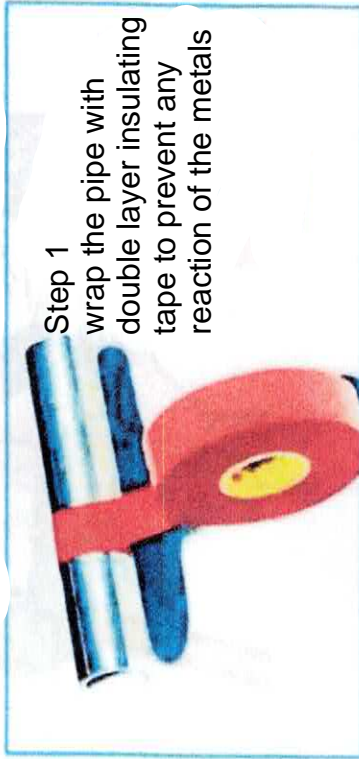

Installing the NAWT Collar at the front of the main water inlet pipe, The iron and calcium ions in the incoming water can be treated At the same time.

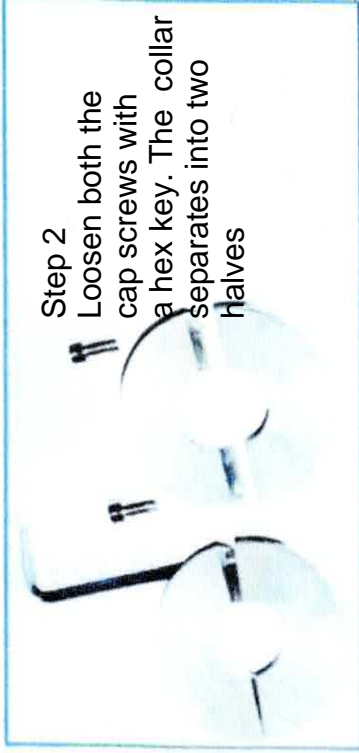

Install a NAWT quantum collar on the main water inlet entering the water and tank boiler equipment to further process the calcium and iron ions in the water pipes so that they do not deposit and corrode the boiler and water tank equipment. It also sterilizes and inhibits algae.

Installation instruction

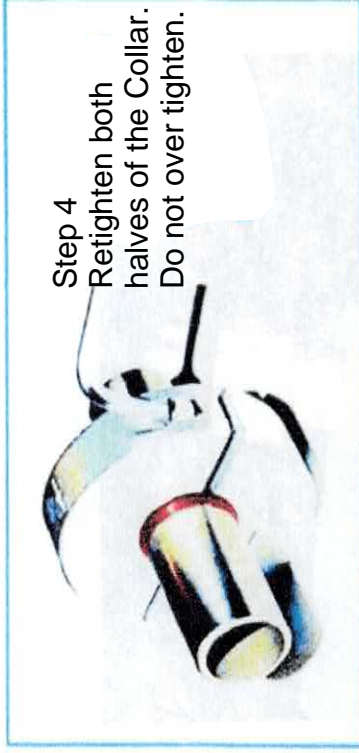

Step 1
wrap the pipe with
double layer insulating
tape to prevent any
reaction of the metals

Step 2
Loosen both the
cap screws with
a hex key. The collar
separates into two
halves

Step 3
Set both halves onto
the prepared section
of the pipe. Make sure
arrow points in the
direction of the flow

Step 4
Retighten both
halves of the Collar.
Do not over tighten.

Measure the circumference of the pipe, the circumference check in the table below.
Order the correct size equipment based on the diameter value.

1/2 "	DN15
3/4"	DN20
1"	DN25
1.25"	DN32
1.50"	DN40
2"	DN50

Instructions for use

Home water piping systems use standard size pipes, so just select the correct NAWT Collar of the corresponding size. Moreover, the installation method of NAWT quantum collar is very simple. It does not require a professional technicians to install it. Every adult can do it regardless of gender.

We hope that our quantum water treatment device can either become a shelf item in Lowes, Home Depot or hardware store. Needs to become a daily necessity for residents. Beyond green we are emerald.

*** Lasts 10 years on a average household ***
