

Cerafire

CERA-FIRE MULTI PURPOSE RAPID STRIPING DISCS

These are ideal for quick stripping and cleaning without causing excessive stock removal or gouging on metal. Cera-Fire will withstand heavy applications such as stripping heavily rusted metal without shredding. Cera-Fire are not only durable, they are extremely versatile, by using a lighter pressure they are excellent as a surface finishing disc.

- Can last twice as long as competitor discs
- Does not shed on rust
- Prevents gouging and rework
- Does not snag when used for deburring
- Can be used for surface finishing
- Can be used for heavy stripping
- Consistent cut rate during life cycle.
- Adhesives, most sealers and soft metals will not clog the discs

Grain : Innovative Ceramic Technology ensuring optimal cutting performance & durability

Fitting : Quick Change 3M™ Roloc™ type fastening.

Coating : Advanced open resin bonded open structure

Bond : Strong resin over resin for maximum load resistance & reduced heat transfer

Part No	Diameter	Description	Qty / Box
525010050	50MM / 2"	50mm Cera-Fire Rapid Strip QC Stripping Disc	20
525010075	75mm / 3"	75mm Cera-Fire Rapid Strip QC Stripping Disc	20

Part No	Diameter	Description	Qty
525010029	25 mm / 1"	25mm QUICK CHANGE BACKING PAD & ARBOUR	1
525010059	50 mm / 2"	50mm QUICK CHANGE BACKING PAD & ARBOUR	1
525010070	75 mm / 3"	75mm QUICK CHANGE BACKING PAD & ARBOUR	1

Quick Change Fastening System

MAIN APPLICATIONS

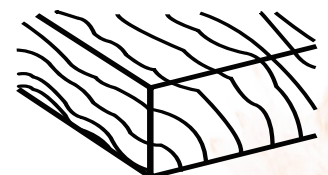

- Stripping
- Blending
- Heavy scale removal
- Stone/granite clean up
- Cast iron, steels, aluminium, fibre glass and composites
