

cera-padTGX

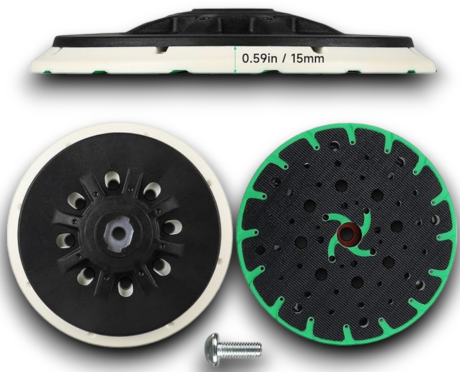

150mm, Hook & Loop Dust Free Semi-Firm Backing Pad with M8 Connecting Thread

Part of the Cera-Pad range. A multi-hole semi-firm hook and loop backing pad with M8 thread for the Festool® ETS150 and similar marques.

The Multi-Hole pad guarantees outstanding sanding results thanks to its unique design and enhances the ceramic abrasives technology from the cera-cut range.

Guarantees virtually 100% dust extraction for a consistently high material removal rate. These 150mm diameter hook and loop system allows quick and easy changing of the cera-cut range of abrasive discs.

This heavy duty semi-firm pad features high temperature durability for universal use.

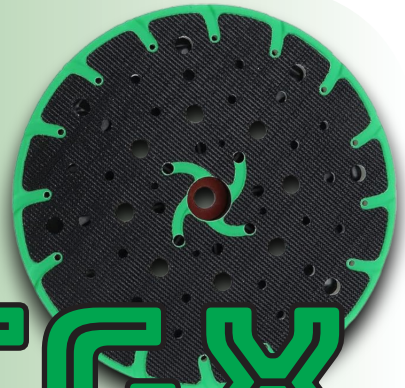

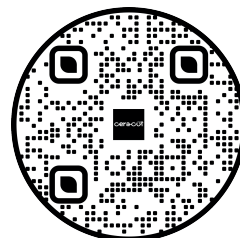

Fits the Following Festool® Models

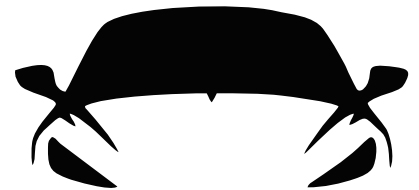

- ETS 150/3 EQ
- ETS 150/5 EQ
- ETS EC 150/3 EQ
- ETS EC 150/5 EQ
