### CORE ADVISORY PILLARS

- **Workplace Violence Prevention and Intervention (WVPI)** Our goal is to create a safe environment by proactively identifying, preventing, and responding to workplace violence incidents before they occur (Left of Boom). By building trust within the organization, we empower employees to utilize clear reporting procedures. This is supported by situational awareness training ensuring a culture of safety, while preserving the dignity and respect for employees.
  - **Strategic Vulnerability and Risk Assessments** We proactively identify, evaluate, and manage potential risks of violence or harm to people, assets, or systems, aiming to prevent workplace violence incidents before they happen, (*Left of Boom*). We accomplish this by understanding specific threats, assessing their credibility, and developing intervention or mitigation strategies, rather than just predicting future behavior.
  - **Developing a Culture of Care** Partnering with executive leadership to build high-trust environments where employee well-being (psychological safety) is the foundation of security. Our goal is to ensure safety and security are woven into daily operations as a primary line of defense.
  - **High-Stakes Security Strategy and Executive Advisory** Providing discreet counsel for C-Suite leaders and Boards to ensure security decisions are proactive, informed, and aligned with organizational goals and enterprise-wide resilience.
  - **Forensic Security and Expert Testimony** Providing a forensic lens to evaluate the professional Standard of Care and bridging the gap to legal accountability. We deliver objective, practitioner-driven insights and expert testimony grounded in forty years of security leadership and advanced academic research.
-
