Dear Henry Vorderbruggen, Esq.:

Thank you for representing me in this action against Motors, regarding my 2016. I'm very grateful for the level of expertise, promptness, and professionalism I was afforded by you and by Chevis Trotter.

I have made my selection regarding the options. After careful review, and discussion with my accountant and others, I have selected option number two. It is the choice that will best suit my family. I acknowledge that this will mean the attorney's fees are reduced to \$2500.00. I wanted to be sure that you and Chevis are aware that your assistance has been worth far more than what Motors is paying you.

Attached, you will find I have completed the necessary paperwork. I look forward to hearing from Motors through you regarding a vehicle inspection and learning when I should surrender the vehicle to

With my utmost gratitude,

Dear Shalev,

We received the check today and deposited.
Thank you very much for your services.

We have decided to keep the vehicle at this time as the 9K doesn't come near a replacement cost, but that it has helped in the frustration of what we've been going through. Hopefully we won't have to use it for continual repairs as we have accepted that the fact we bought a vehicle without a key-less operating system making it a \$36K valued vehicle instead of the \$45K we paid.

We have not done any type of "social media" such as Tweet, facebook, like/dislike, etc..... and frankly don't know how.....

At 80 years of age, I'm lucky I've been able to keep this computer functioning with email to our friends & family and research.

Thanks again, and we will absolutely keep you in mind should we hear of anyone needing your services.

Sincerely,

Henry,

I received and deposited the settlement check.

Thank You so much for helping me with this matter. As you know I only wanted the vehicle I purchased to operate correctly and to feel confident that going forward the issue would be resolved. When it became apparent that this wasn't the case I asked [REDACTED], through a very frustrating customer service process, to repurchase my vehicle. They denied my request only to do so after you and your law group got involved. I appreciate very much your assistance in resolving this to my satisfaction.

Hey Henry,

Thank you so much for everything! I cannot believe how well this went! Everyone I tell can't believe it either! I've written a review, but wanted to run it by you before I posted it:

"I had been having lots of transmission problems with my vehicle. It was a 2015, but had relatively low mileage. About a month after I bought it, I noticed the issue. Over the next year, I brought the vehicle back to the dealer, it was under warranty still, to fix the problem about 5 times, always with the same result. My frustration led me to the internet to search for others that may have had the same issue. I found a blog related to this vehicle, and saw numerous complaints about it. There was an add on the blog for the Amar Law Group who specializes in the "Lemon Law." There was a short questionnaire to fill out to get more info. I filled out the questionnaire out of curiosity and sent it through. Within about 30 minutes I got a call from Henry Vorderbruggen. Henry informed me that because of the age of my vehicle, I was no longer eligible for the Lemon Law. However, he also told me that my time is valuable and that I should be compensated for the amount of time I had been without my vehicle. Henry told me that the manufacturer would probably not buy back the vehicle, but would most likely compensate me for my time. Of course, having been a police officer for 30+ years, I was skeptical of what Henry was telling me and asked how much this was going to cost me. He told me it wouldn't cost me anything. He said if we reached an agreement with the company, they would be obligated to pay the attorney's fees. Still not quite sure about this, I told Henry I would think about it.

Henry called me once a week to see if I would like to go through with a claim. He was not pushy or annoying, he kept reassuring me that I could possibly get some compensation. I told him I still wasn't sure what I was going to do. During the next month I had to take my vehicle back to the dealer two more times and was pretty fed up with what they were telling me. So, I contacted Henry and told him I'd like to go through with a claim. I forwarded copies of all of my invoices to Henry. He authored an amazing letter and sent it to the company. Within a week or two, Henry called me with some great news. The manufacturer had agreed to buy back my vehicle! I was later reimbursed nearly everything I had invested in this vehicle. The vehicle at the time I turned it in had 55,000 miles on it. The service manager that took possession of it said he had never seen this company buy back a vehicle that was that old with that many miles on it. And they paid the attorney's fees!

I couldn't be more happy with the service I received from Henry and the Amar Law Group. Henry kept me informed during the entire process. He returned my emails and phone calls promptly and just gave excellent service. I highly recommend the Amar Law Group!"

Thank you again for all you've done for Liz and me. These things don't usually work out for us. I'm still looking for a vehicle to replace the _____ and last week Liz was rear ended on the freeway so now we are down to one vehicle! Meh, whadda ya gonna do?

Take care and let me know what you think about the review...
