

# Tom Block

## BIOGRAPHY

Tom Block is the author of '**THE America WE KNOW**,' a 620 page unique Patriotic non-fiction Table Top Book on American historical perspectives and values. Newly released, it is a compilation of several defining topics to remind us of America's greatness sometimes long forgotten. Block's book is published in Hardback, Paperback, and Kindle formats.

In his 'Table-top Book' on American values, **THE America WE KNOW**, Block's intent is to remind us of America's Exceptionalism, historical tidbits, and values that made America the Beacon of the World. Leave it to a Military Veteran to produce a great colorful, easy to understand, informative, and fun-read book for everyone in the Family.

Born and raised in Milwaukee, Wisconsin, Block joined the U.S. Air Force at age 19, and spent over 25 years as an Aircrew member in the Military Airlift World. He mostly flew the C-141 Starlifter strategic jet cargo aircraft as a Loadmaster. He has 5,700 hours in six different type aircraft, with some 42 combat sorties from Vietnam (*Linebacker I & II*) through Gulf War I (*Desert Storm*). He retired from the U.S. Air Force in 1999, and is a graduate from the University of Colorado.

Block spent 35 years as well in Marketing & Sales, Finance, and Business Development, in the Insurance, Computer Software, and Automotive Industries as well as establishing several small businesses. A big believer in giving back to the community, his current volunteer work includes serving on Executive Boards and Leadership positions for several non-profit organizations: Norton-March Alumni Association (Founder), LFL-Exploring: Air Force Explorers, U.S. Military Explorers, and the Knights of Columbus.
