Autoimmune Disease Therapy

Understanding Immunotherapy

Immunotherapy, in our hands, refers to the use of the body's own immune system to be the guiding principle for the use of exogenous immune agents, proteins and modulators intended to mimic the body's own immune response, when the body has been compromised. © By: Victor Muhammad, Executive Director – Life Science of Washington, Inc. 03 May 2019 copyright

Here are the FAQs on the ImmunoTherapy Business
