CROSS-SECTIONAL VIEW

FULL 360° SUPPORTED CONTACT BALL
— Solid one-piece construction with
no welds that could chip, crack, or fail.

OUR GENERATION 2 BREAKOUT TABLE JAWS EXCEED TYPICAL OEM PERFORMANCE STANDARDS:

SOLID ONE-PIECE CONSTRUCTION

No welds to chip, crack,
break, or cause part
distortion.

PROPRIETARY HEAT-TREAT PROCESS

Achieves higher Rockwell
hardness than most OEMs,
without case hardening,
ensuring consistent
hardness throughout
each contact "ball".

DURABLE & RELIABLE

Built to withstand
the toughest
conditions in
the field.

DESIGNED FOR ROCK DRILLING

Engineered for maximum
performance, reliability,
and long service life in
demanding applications.
