No new updates at this time.

Field Maintenance and Work Days:

Ensuring the optimal layout of our RC track is a continuous project, and we're committed to creating the most exceptional track for our members. Keeping the track well-maintained and preventing weed overgrowth is essential. If any members have extra weed killer to donate to the club, it would be greatly appreciated. We should also consider including this in our budget to maintain the runway. If any member notices damage or creates a hole in the runway, please inform Doc Moore immediately. Timely reporting ensures that repairs can be made promptly, minimizing the potential for further damage.

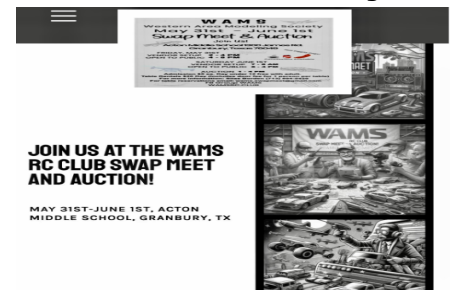

We appreciate your ongoing support and cooperation in making WAMS RC Club a thriving community for radio-controlled aviation enthusiasts. Please feel free to reach out if you have any questions or concerns.

Thank you, and we look forward to seeing you at the meeting.

Yours truly,

Joseph Salazar "Saladbar"

WAMS RC Club Communications Director
