

WAMS RC Club Newsletter - November 2023

Dear WAMS RC Club Members,

We hope this newsletter finds you well and thriving in your passion for radio-controlled hobbies. There are several important updates and announcements to share with you as we approach the end of the year.

1. Updated Bylaws:

These revisions were made to incorporate additional information as suggested by the AMA (Academy of Model Aeronautics) and insights gathered from several other area clubs. As a nonprofit organization, it is imperative that we adhere to these bylaws. Please review them carefully, as they will be voted on for approval at our upcoming meeting on Monday, November 20th.

2. Officer Elections - 2024/2025:

During the November 20th meeting, we will also conduct elections for club officers for the 2024/2025 period. Your participation in this process is crucial, so we encourage you to attend the meeting and cast your vote.

3. Shelter Project Update:

We have exciting news regarding the progress of our shelter project. Despite the challenges, we are making significant headway and anticipate completing the facility in the new year. The city has begun clearing the south end of the property and is now bringing in clean fill dirt to create a smooth and well-maintained flying field. The finished result promises to be a visually stunning and functional space for all our members.

4. Runway Repairs:

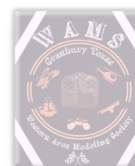

It has come to our attention that some damage occurred on the runway. Our dedicated member, Doc Moore, promptly addressed the issue by making the necessary repairs. If any member notices damage or creates a hole in the runway, please inform Doc Moore as soon as possible. Timely reporting ensures that repairs can be made promptly, minimizing the potential for further damage.

We appreciate your ongoing support and cooperation in making WAMS RC Club a thriving community for radio-controlled aviation enthusiasts. If you have any questions or concerns, please feel free to reach out.

Thank you, and we look forward to seeing you at the upcoming meeting.

Yours truly,

Joseph Salazar "Saladbar"
WAMS RC Club Communications Director
