we will have to cancel. If you are  
available, call the office and schedule.  
This can not be done last minute be-  
cause security must be scheduled in  
advance

# HORSE RIDERS NEEDED

Here come the Horses!!!

We are going to try this again, since the horses were frightened of the fireworks.

*Friday, August 30th at the Clubhouse*

*7:00pm-11:00pm*

We are looking for horse riders. In case you have not been to one of our races, this is what we need in horse riders. A GREAT sense of humor and a good imagination. We will provide the horses.

Most horses have 4 legs but we do have special horses that only have one leg and its wooden one. Riders will have to name their horses and decorate it for the big day. You will be only standing or walking for about 10 minutes on a grid that will be on the floor of the clubhouse. Each rider does 3 races...no running needed. If

you have questions or are interested please contact Sandy (Lot 313)(989) 277-7476 or Doris (Lot 222) (517)749-0245

Since this is a gambling event, you must be 18 to buy a ticket and enter the event.

Tickets to enter are on sale for a \$5.00 donation and profits will be given to the Activity fund. Bidding on the horses will be given to the Activity fund, and bidding on the horses will be \$1.00 a horse per race. All money collected for each race will be paid to the winners.

Always a great time!!!

Join in on the fun

**PLEASE NOTE, This is a tentative calendar**

Continue to watch weekly flyer for more updates!

**With the extreme heat temperatures  
and heat index please take note.**

It is almost guaranteed that power issues will occur with the high heat and use of air conditions.

**Please take steps to avoid long term failures.**

**Everyone Must take their part  
in helping from overloads to our system.**

Steps to take to help eliminate  
extensive uncomfortable electric loss.  
*Air conditions draw the most power and  
will pop breakers if not cleaned and/or  
air flow is obstructed*

Turn off and unplug All unnecessary electrical sources.  
Each of these Do pull current, even if not in use.  
**TURN AIR DOWN WHEN NOT IN USE.**

Examples:

**Hot water tanks, Toasters,  
Microwaves,  
Coffee pots, Cell chargers etc.**

**Thank you for your total cooperation by doing your part.**
