

Joint Substations Design Guide Public Information Day Tuesday 2 September

The first phase of engagement on the projects' Design Guide launches on Monday 18 August. During this time we are seeking views on certain aspects that will influence the final design of the two projects' co-located substations.

To support this, we invite you to attend a drop-in public information day to find out more and ask the projects' any questions you may have.

Tuesday 2 September, 3-7pm
Lawford Venture Centre
Bromley Road, Lawford CO11 2JE

You can find out more and read the first draft of the Design Guide on either project's website from Monday 18 August.
