GETTING YOUR ASTRO DUCKS IN A ROW

DURATION: 4 Months

FORMAT: 2-hour live class per week (via Zoom)

FRAMEWORK: Traditional Astrology – Tropical Placidus

LEVEL: Beginner (no prior knowledge needed)

OVERVIEW

Ever feel like your astro ducks are floating in every direction – a sign here, a chart snippet there – and nothing quite makes sense?

This course is about gently herding them into order. Step by step, we'll line up the signs, planets, and houses so the chart starts to look less like chaos and more like a system you can actually understand.

No pressure, no tests, no expectation that you'll become a professional astrologer. Just a fun, structured way to see your chart clearly, understand how it works, and notice what it might reflect about you.

Over four months, we move through the basics, building to full chart interpretation. Each week adds a little more clarity – and a little more confidence – so you can enjoy the process without feeling overwhelmed.
