Chapter 14 – Pleasure Driving Combined Test

- 318.1
- Pleasure Driving Combined Test**

Pleasure Driving Combined Test. The score for any ADS Dressage Test may be combined with the score of a Pleasure Driving Combined Test Obstacle Class.

a.

The Dressage Test – requires a judge with an ADS Dressage License or an ADS Combined Driving License.

b.

Scoring
 1. Dressage points awarded by each judge are added together for total points.
 2. Total points from all judges are divided by the number of judges to obtain the average total points.
 3. Average total points minus any penalty points given by the judge at “C” equals the total score.
 4. The total score is divided by the total possible score in percentage points.
 5. Scoring of PD Obstacles as per [PD Art 318.1.h](#).
 6. The final PD combined test score is the dressage score as a percentage minus the obstacle penalty points.

c.

The Pleasure Driving Comined Test Obstacle Class - requires a judge with an ADS Pleasure license or a competition knowledgable person for classes with 25 or fewer entries.

d.

Unless otherwise published in the Omnibus, the same vehicle is to be used in Dressage and the Obstacle Class.

e.

The PDCT Obstacle course will be a prescribed course of numbered obstacles, proportionate to the dimensions of the driving area. Not to exceed 15 obstacles, keeping in mind that pleasure competition vehicles may have a larger turning radius and may not be constructed with a fifth wheel. After passing through the start line, the driver proceeds through each obstacle in order and through the finish line.
