## About **Radiant Apex**

### **Learn Anything. Learn Together**

**Radiant Apex** is a premier training institute committed to empowering professionals with future-ready technology skills. Our mission is to deliver practical, job-oriented training in SAP modules, full stack development, data analytics, and more.

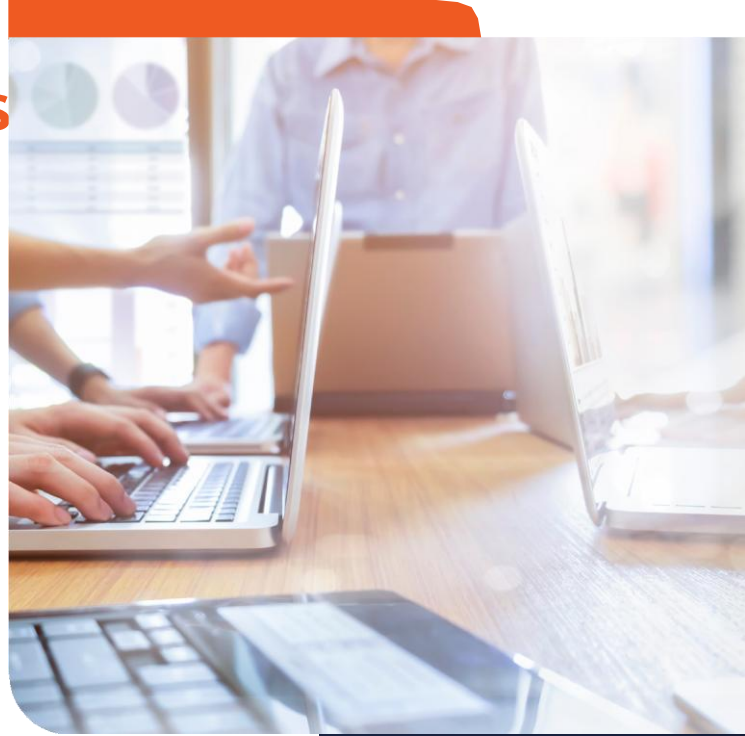

## **Who we are?**

**Radiant Apex** is an exciting platform for educators and learners of the 21st Century, where in we provide various courses and opportunity to become a new personality both mentally and professionally. We have organized and sequenced our training materials. There are many planned and creative phases of learning that ultimately creates what we hoped would be a coherent experience that would raise the understanding and skill level of everybody involved, including the both learners and teachers.

## What Radiant Apex gives

Radiant Apex is a forward-thinking technology training institute dedicated to equipping individuals and professionals with the skills needed to thrive in today's digital economy. With a strong presence in Electronic City, Bangalore, we specialize in SAP training—both technical and functional—along with a range of Non-SAP IT programs like full-stack development, cloud computing, and data analytics.

## Why Radiant Apex?

Radiant Apex stands out for its expert-led training, job-oriented curriculum, and real-time project exposure. We offer flexible learning modes—both online and offline—to suit your schedule.

# SAP

## About the Course

Radiant Apex Institute of Technologies offers comprehensive training in SAP technical and functional modules, designed to meet current industry demands. Our courses include SAP ABAP, S/4HANA, RAP, BTP, and CAPM on the technical side, along with SAP SD, MM, FICO, PP, EWM, and CRM for functional training. In addition, we provide non-SAP technology training in Java, Node.js, Python, SQL, and Full Stack Development. All programs are delivered by certified industry experts with real-time project experience, ensuring practical learning and job-readiness. Learners gain exposure to end-to-end business process integration, SAP Fiori and BTP development, and receive complete support for resume building, mock interviews, and placement assistance. Flexible weekday and weekend batches are available for both online and offline modes.

## Prerequisites

---

- No prior SAP knowledge is required
- Basic understanding of business processes is helpful (optional)
- Familiarity with programming concepts is an added advantage (optional)
- Open to fresh graduates from any stream
- Suitable for working professionals from IT or non-IT backgrounds
- Ideal for career switchers looking to enter the SAP domain

## Audience

---

- Freshers looking to build a career in SAP or software development
- Working professionals aiming to upskill or shift to SAP technologies
- IT professionals interested in SAP integration and cloud technologies
- Consultants seeking expertise in SAP ABAP, S/4HANA, or functional modules
- Entrepreneurs and managers who want to understand enterprise systems
