

## Footbrake Class (9.00-17.99) will be a NO-electronics class.

Electronic ignition and single-stage (highside) rev-limiter will be accepted. Non-drive wheel line-locs will be accepted but wiring must be direct and traceable. Nitrous, must be activated by driver switch or wide open throttle switch, single stage only, notimers.

Electronics removed and expressly forbidden, but not limited to: data recorders, transbrakes, electric/automated shifters other than factory, two-steps, electronic throttle stops, and delay devices. Reverse Trans solenoid may only be operated by a switch affixed to the shifter, such as a back-up light switch.

Two Step and transbrake button ALLOWED in vehicle but not activated. This will be monitored at starting line by Officials. Immediate disqualification if used.

Air or Electric shifter ARE NOT ALLOWED in vehicle as this cannot be monitored by an official.

Sportsman .500 tree

Deep Staging Allowed but not guaranteed. It is the drivers responsibility to make sure its marked on window and stage in a timely manner.

- Driving past the starting line after your burnout is prohibited. Do your burn out then proceed to stage. Only exception is cars with no front brakes.
