

TECH

- Tech cards to be purchased at the RCSS Support Trailer. Tech cards only to be sold to the Racer entering in the event. Racer must have the correct arm band for the day of the purchased card.

- All race vehicles must be tech'd by track and tech cards handed into tech inspector.

- ALL TECH QUESTIONS OR CONCERNS MUST BE DIRECTED TO NEALE ARMSTRONG AND NOT TO RCSS COMMITTEE.

Race Protest

ANY protest must be made before you stage your car! It is the racers responsibility to make sure their dial in is on the board correct, and that any mechanical malfunctions that might be in question are addressed BEFORE you stage! Once you have staged, you have "agreed" that all things are ok, including dial ins for both lanes, staging beams and any other item that might factor in to make you "race ready"! Should you have a question about anything, DO NOT STAGE, get the attention of the starter and address the problem at once!

Competition Protest

Any entry may be protested for being class legal by any other DRIVER in that same respective class. This may be done by approaching the current race director, along with \$300.00 cash as a Protest Fee. If the protested car is found to be illegal, the protestor will receive \$150.00 of his fee back and \$150.00 will go into the bracket finals purse for that days event. The illegal car will be eliminated from the class for the remainder of the event and will forfeit any winnings earned in previous rounds. If the protested car is found to be legal, the protested driver will receive \$150.00 of the protest fee and \$150.00 will go into the Bracket Finals purse for that days event. Qualifying/Elimination rounds for all other classes will continue while this protest is being settled.
