## Decorative Glass Options

For doors and windows, you can choose from our large selection of standard glass designs or let our in-house glass division "MPD Glass" work with you to create a truly unique one-of-a-kind design that will create privacy & beautify your home.

## Custom Colour Matching

For doors and windows, you can choose from our large palette of standard colours or have us custom match an existing colour. Colour matching is available for paint or stain and our in-house paint facility can accommodate your request.

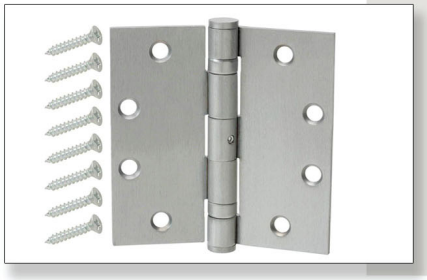

## Double Weather Stripping

Double weatherstriping is standard for maximum weather protection, providing an excellent R rating. Our double weatherstripping is continuous and no breaks in the seal. It is waterproof.

## Deadbolt Plate & Self Adjusting Strikes

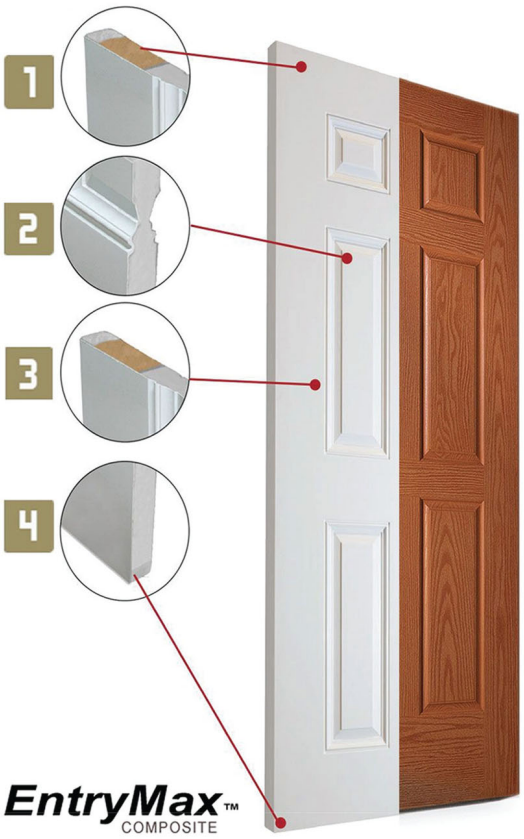

4mm thick steel deadbolt reinforcement adds an extra layer of security along with our patented ratcheting strike plate offer a consistent positive seal no matter the weather conditions.

## Ball Bearing Hinges

Ball bearing hinges provide smooth operation year after year.

# Not all fiberglass doors are created equal.

### 1 Steel Reinforcement

Full length steel reinforced LVL lock block offers exceptional security and prevents warpage in extreme temperatures.

### 2 Energy Efficiency

Filled with an insulating core of 100% CFC-free polyurethane foam, providing an excellent R rating.

### 3 Durability

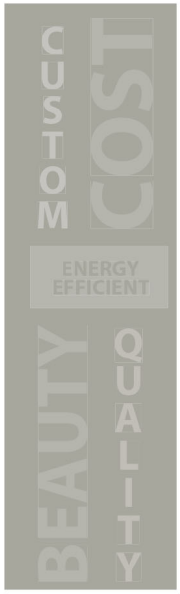

Fiberglass skins are resistant to dents, dings, splintering and corrosion. Rigid structure prevents bowing and warping in extreme temperatures.

### 4 Waterproof

Full length composite stiles and rails provide complete waterproofing and superior strength. These will not splinter like wood or delaminate like steel.

Our fiberglass doors provide the best in strength and security while looking great.
