

# Welcome to Gander Green Lane

For our ninth and final Summer outing of 2023, and our 7th in the last 24 days!

Tonight also sees the culmination of our fund raising with the total amount of our efforts being donated to Clare, daughter of Paul Alan for her Project to provide defibrillators for public access, at half-time, well done to all our players.

Despite what some of the score lines suggest, each of these games have been closely contested affairs.

Let's hope today event is yeat another enjoyable one for all our players, supporters and officials.

Founded in 1898, this season marked the 125th anniversary of the club, celebrated at the hiome game against Crewe Alexandra in March.

The 'U's achieved their very first promotion to the Football League after winning the National League title in the 2020–21 season.

In 1988-1999 the club hit the National Headlines beating Coventry City, then in the top flight of the Football League, 2-1 at Gander Green Lane, a game shown on BBC Match of the Day.

Later, in 2016-2017, Sutton became the first non-league team to reach the 5th Round of the FA Cup after a notable 1-0 triumph over Championship Leeds United saw the eventually fall 0-2 to Arsenal.

Sutton United's first match at Gander Green Lane (then known as the Adult School Sports Ground) was in 1912 against Guards Depot F.C. in the FA Cup.

Following Sutton United's promotion to the EFL, a number of large scale changes had to take place to bring the ground up to EFL ground grading. The artificial pitch, installed in 2017, was torn up and replaced by grass, to meet the League rquiremnt of no artificial surfaces.

## The Paul Alan Proje

Tonight's fixture here at Gander Green Lane, with the help of Sutton United Foundation, is supporting the Paul Alan Project with excess funds from our 2023 events, today's one-off programme sales and raffle for a match worn (Will Randall), squad signed Sutton United shirt, kindly donated by the club, a hamper, a Wolves shirt signed by Craig Dawson and a de-fib training package. This will be drawn at half-time.

Some of our players may well have heard the name Paul Alan, he was a genuine football supporter who attended a game early last year and verv sadlv didn't come home.

An act of celebration we have all made many times for our own clubs began the unfortunate series of events that followed. On 29th January 2022, Fulham Football Club's home match against Blackpool FC was paused in the 11th minute. The pause was due to Paul Alan Parish, suffering a cardiac arrest in the Hammersmith End shortly after celebrating a goal by Aleksandar Mitrovic.

His daughter Clare, in attendance this evening, was at his side on that unfortunate day and has since formed the project in his name aiming to purchase, install and provide defibrillators to community spaces where there is a need; in particular, within parks and open spaces and grass roots and amateur league football. The Project also provide training sessions to empower people with the knowledge of:

- how to spot the signs of a cardiac arrest
- how to help someone who is having a cardiac arrest
- how to perform CPR
- how to use a defibrillator
- the difference between a heart attack and a cardiac arrest

I'm sure all of our members/players can relate in some way to Paul's story, many of us attending games up and down the country regularly, involved in grass roots football, use parks and open spaces for games and know somebody (me included buy the way) that has suffered serious Heart issues and will support our game at Sutton if you are attending or not.

Full details of the project and a emotional personal account from Clare of the events unfolding at the game can be found at https:// www.thepaulalanproject.org/

### Heeding over the border again?

After two successful weekend trips North of the Border in the last two years, we are once again, planning our third trip taking in another two new Scottish League grounds to add to our collection of stadia played in. After Raith, East Fife, Airdieonians and Gretna, we look to be playing at ground around the Stirling area this season provisionally in the international weekend break in September. Head 2 Hospital replacing our usual Head to Head article!

As you know this is usually where we report our latest 'Head 2 Head' stats between two regulars, unfortunately at Lincoln City, Poor old Dave Heason was fitted with one of the trackers and ended up injured in hospital. However, the tracker continued to record throughout, so these are Dave's results!

In all seriousness, Both Dave and Dean Twyman have both recently unfortunately picked up serious injuries in games, two of our most respected regulars, so can we take this moment to wish both a comfortable and speedy recovery, hope to see you both back on the pitch later in the year

16) I appeared on BBC's Bargain Hunt, and lost!
