2025 is the 50th anniversary of the end of the Vietnam War. I have created this triptych titled "the Evolution of Helipads in Saigon" for the reception for exhibitors at the Royal Greenwich Maritime Museum. The top 100 images from the Royal Observatory's Astronomy Photographer of the Year contest were on display. Out of 5,800 entries from around the world, Timothy's image of the Pleiades made the top 100 and is on display there for the next year. It was also printed in the official book, a very nice hardbound piece that contains all the top images.
"It's quite an honor and very humbling to have my work on display where William and Caroline Herschel did their groundbreaking work in astronomy and nautical navigation in the late 18th century," he said

Jill Garrett

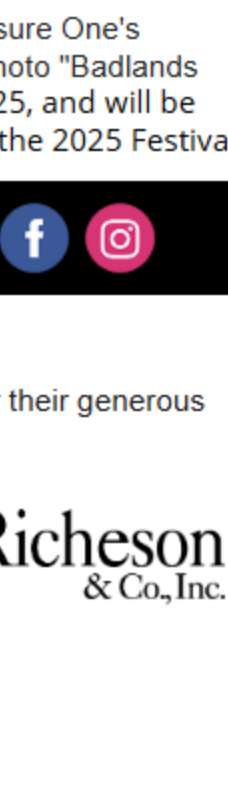

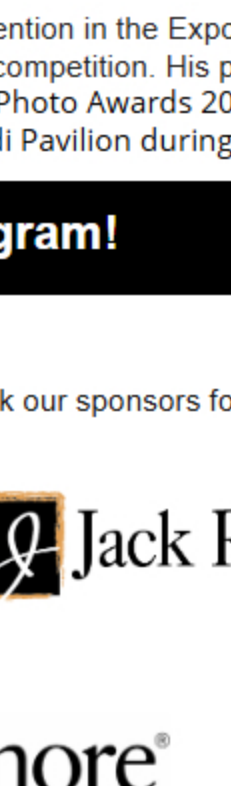

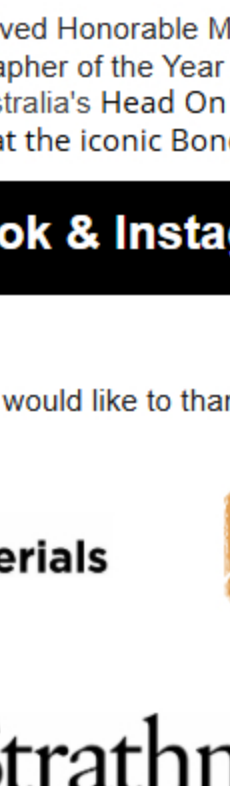

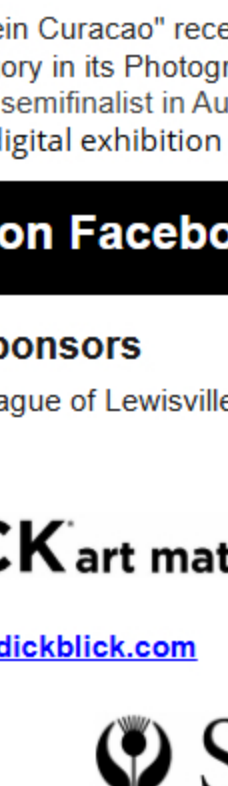

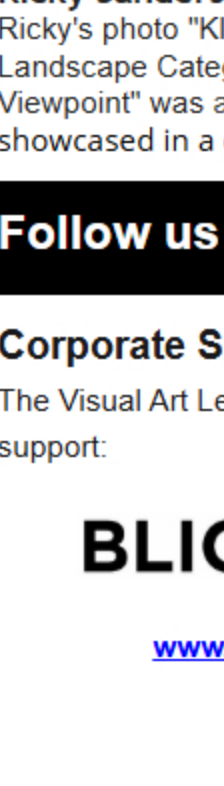

Jill Garrett displayed three paintings at the Flower Mound Senior Center's art show for the month of September.
