ALGER CONSERVATION DISTRICT
helping you manage your natural resources

Hello, Alger County!

Many residents know Alger Conservation District as the local natural resource team in Alger County. Our team organizes workshops, program resources for residents, schools, local municipalities, and the annual county tree sale featuring native trees, shrubs, berries, fruit trees, and more each year. Our residents support these programs and more through volunteer efforts, grants, state funding, and a local millage from you. ***We thank you for your support as we continue delivering our community's natural resource mission in the upcoming years. From our team to you, thank you for supporting your local conservation district.***

NEW Your County, Your Voice! **NEW**

As a locally funded, educational, non-enforcement agency, Alger Conservation District is genuinely at your service. Every five years, we must ask our residents what they want us to focus on. **Your immediate feedback at this time will help us deliver your needs and requests as your local conservation district.** Your participation in this process allows our team to focus on the needs of our community. It assists our staff in securing grant funding from private, state, and federal sources for a wide range of community needs, including grant management, habitat improvement, community garden spaces, keeping workshops free to everyone, monitoring stream health, invasive species management, educational resources, and much more.

Help us best serve you, the community of Alger County. Take the Natural Resource Survey today by scanning the QR code below. This survey can also be completed on our website at www.algercd.com/AlgerSurvey, or you can come by the office at 101 Court Street, Munising, MI, anytime during office hours; please see our website or call (906) 387-2222 to either make an appointment or verify we are in when you stop by (we are often out and about in the community throughout the year).

Take the Resident Natural Resource Survey Now!
