

3-WAY CATTLE SORT

Hydraulic System for Easy Processing

LIVESTOCK EQUIPMENT

3-WAY HYDRAULIC CATTLE SORT

Product Code # 022-3WHYDSORT

Built to expand the use of existing sorting or processing facilities, this sturdy addition is built with customization in mind. Sorting to the left, right, or center has never been easier.

You can add the MJE LE Hydraulic Power Pack & Swing Arm, or connect it to your existing hydraulic system.

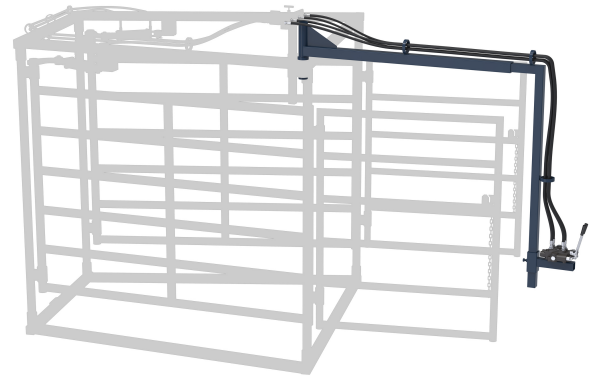

- Length: 8' Width: 7' Height: 8'8" (12'L Fully expanded)
- Built with 2-3/8" and 1.9 14-gauge round tubing, and 2 1/2" x 3/16" Square tubing
- Made from American Steel

CATTLE SORT SWING-ARM EXTENSION

Product Code # 022-3WHYDSWINGARM

If you're looking to finish out your sorting system easily, simply add the Swing-Arm Extension to increase flexibility and open/close gates with ease from the side of the 3-Way Sort.

- Length: 6' Width: 2 1/2" Height: 4'
- Made with 2 1/2" x 3/16" Square tubing
- Made from American Steel

ALSO AVAILABLE: HYDRAULIC POWER PACK

Product Code # 022-HYDPOWPACKASS1.3

This power pack works directly with the swing-arm extension to give you a fully operational hydraulic sort.
