

FEEDLOT OPTIONS

Heavy-duty, built to last for years in commercial settings

LIVESTOCK EQUIPMENT

FEEDLOT DOUBLE ALLEY

Hydraulic operation is also available.

Our counter-balanced no-backs in the alleyway remove the banging sound common with older style no-backs. The heavy-built design outlasts other double alleys and is safer for livestock and handlers.

- Standard with manual ratchet jack adjusters that offer trouble-free adjustments.
- Optional phasing cylinders for hydraulic adjustments
- Constructed with 11 gauge, 3/16" and 1/4" square tubing and standard wall pipe
- 11 gauge sheet iron throughout

Dimensions

Feedlot Double Alleys come standard with a double to single section measuring 18' 2-1/2" and single file sections measuring 12'6", 18'6" and 24'6" in Length.

- Full Length - 42'8" / 36'8" / 30'8", Width - 7'6", Height - 6'
- Works great with hTub or Bud Box
- New innovations added & designed continually

HEAVY-DUTY FEEDLOT GATES

MJE Livestock Equipment feedlot gates are second-to-none in the industry. Our gates are completely customizable - choose from 3 different weights/strengths, length, number of rails/bars, and select the gate latch options right for your operation.

- Gate hinges have a 3/4" x 3" weld-on hinge block
- Constructed of American-made steel with standard wall pipe on the hinge end
- Top corners are mitered, and all other welds are saddled for maximum strength
- All gates come standard with a chain latch and 3' of chain

Horizontal Bar Options

- 4-Bar (36-1/2" or 42") Special order only
- 5-Bar (42" and 48") In-Stock on standard lengths
- 6-Bar (52", 56-1/2" and 59-1/2") Special order only
