2) I believe that politicians, who go along to get along and who have failed in their own lives, but still believe they can provide leadership for Americans, are bad for America's future.

0 Completely Disagree.....5 No opinion.....10 Completely Agree

3) I believe that our schools have largely failed our children and that the solution does not include many who are currently in charge.

I believe the solution to fix our schools will come from empowering parents, decentralizing control of schools and giving back responsibility to the States and local governments.

4) I believe all immigration, other than legal immigration, must be stopped immediately and that every legal step to implement that change must be employed.

0 Completely Disagree.....5 No opinion.....10 Completely Agree

6) I believe that there should only be one system of justice - which applies to every citizen, including every single elected official holder, local, state and federal.

11) I believe that the income tax rate should be low. It should allow Americans to keep most of what they earn and be equally applied to every taxpayer above the poverty line.

12) I believe that a solution must be found to keep guns from criminals.

0 Completely Disagree.....5 No opinion.....10 Completely Agree

I believe government should provide services that the private sector cannot, should not or will not provide, but only as permitted by the U.S. Constitution, State and local law.

Private sector America should provide all other services.
